COMMERCIAL.

FRIDAY, February 1, 1884.

Our latest dates to hand are per steamship Zealandia that arrived on the 28th ultimo, six and a half days from San Francisco. The news received with regard to the price of sugar in the East was not encouraging to planters, though we are assured by the circular of our esteemed correspondents, Messrs. Williams, Dimond & Co., that they note "a more cheerful outlook" with regard to sugar, "with the impression that bottom figures have been reached" in the East.

The receipts of sugar from the other Islands have been large, and the exports per steamship Alameda exceeded 1,200 tons.

Amongst the most important of late imports, is the valuable lot of stock recently purchased in the States by some of our best judges of horse-flesh. It is in no small measure, indicative of the progressive industry of this Kingdom, and will tend to improve the local stock.

The month of January is reported from all quarters of the globe to be a generally dull and unsatisfactory one in regard to retail trade, and Honolulu is no exception to the general rule.

News with regard to the Treaty is looked forward to with some anxiety, and the procrastination of action on the part of the principal movers of abrogation is not considered to be unfavorable.

The arrivals since last weekly issue comprise the S. S. Zealandia from San Francisco, and the Belle Isle from Newcastle, N. S. W.

The departures include the J. A. Falkenberg, cargo valued at \$9,788 50; the brig Hesperian, cargo valued at \$37,488 50; and the steamship Alameda, with a cargo valued at \$208,000.

The Mutual Telephone Company have demolished the old premises on the lot they have secured, and will immediately commence the erection of their business premises.

SAN FRANCISCO, January 21, 1884.

Dear Sir: Our last circular was dated December 22nd, per Australia.

SUGAR.—We note a more cheerful outlook in this State. Our New York advices quote Cuba Centrifugals, 96 per cent., as steady at 6½c, with the impression that bottom figures have been reached, although low prices may be expected for several months, or until the tariff question is settled in Congress. Choice grocery grades of Hawaiian are offering in this market at 6½c to 6¼c.

RICE.—S. I. Rice.—Our receipts for 1883 were about 121,000 bags, including the returns from the 8,000 bags paddy received here. This shows a slight falling off from the receipts of 1882, which were 125,344 bags. Prices ruled low nearly all the year, and would have averaged less had there not been an outlet for 50,000 bags by rail to various points beyond the mountains. This trade can only be secured by low prices in competition with the products of South Carolina and Louisiana. The reduction of ¼c. per pound in foreign rice also is against it. Present value, 4½c. cash to 4½c. 60 days, according to grade.

MOLASSES.—The large decline in the value of barley, formerly used by the vinegar manufacturers, has brought down molasses for vinegar distillation from 16c. to 12½c. at which recent sales have been made, with some choice lots at 13c. The quantity required by grocers is quite trifling. The quality does not suit the requirement of families.

FLOUR.—Golden Gate Extra Family, \$5 60; El Dorado, 1 40.

BEAN.—\$17 25, 1 c. b. b.

BARLEY.—Feed, \$1 17½.

HAY.—Wheat and Oat, \$17 50, 1 c. b. b. Wheat, large bales, \$18.

LIME.—\$1 50 per barrel.

OATS.—Medium, \$1 70; fair, \$1 60; choice, \$1 85.

WOOL.—Market continues inactive. We quote: Northern San Joaquin, 13½c.

CHARTERS.—Rates are entirely nominal. Last charter, an iron ship 278, 60, to Cork, U. K. Shippers show no disposition to make new engagements. Our Produce Exchange reports 336,000 tons wheat remaining in the State, January 1st, 1884. Rain keeps off. Total fall to date, 5½ inches, against 9 7/10 same time last year.

EXCHANGE.—London, 60 days, 49½; New York, sight, 136½; 2 cent. prem.

Yours, faithfully,

WILLIAMS, DIMOND & CO.
